### **DETAILED ACTION**

Applicant's election with traverse of species I in Paper No. 7 is acknowledged. The traversal is on the ground(s) that certain claims are generic. This is not found persuasive because the stated generic claims are not allowable at this time..

The requirement is still deemed proper and is therefore made FINAL.

Claims 5-8, 11-12 are withdrawn from further consideration pursuant to 37 CFR 1.142(b), as being drawn to a nonelected invention, there being no allowable generic or linking claim. Applicant timely traversed the restriction (election) requirement in Paper No 8.

### ***Claim Rejections - 35 USC § 112***

Claim 19 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Claim 19 recites a method in the preamble but does provide any active steps within the body of the claim.

### ***Double Patenting***

Claims 1-4, 9-10 and 13-19 provisionally rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 20-40 of copending Application No. 09/734,282. Although the conflicting claims are not identical, they are not patentably distinct from each other because the current claims

Art Unit: 3762

are merely broader in scope with the elimination of claimed features being obvious to one of any skill in the art..

This is a provisional obviousness-type double patenting rejection because the conflicting claims have not in fact been patented.
